

ASSOCIATE PROJECT ARCHITECT

STATUS

Full Time

WAGE RANGE

\$ 25 - \$33 | hour

WORK LOCATION

Missoula, MT

ACCOUNTABILITY LEVEL Leadership Ownership Execution**CULTURE**

As a Glo team member, you'll be part of a high caliber fenestration design team that passionately pursues our core values of excellence and environmental stewardship on a daily basis. You'll resonate with our need to prioritize technical capability, collaboration, high performance, high quality, and sustainability in lieu of taking on projects that aren't in alignment with our values or pushing sales for the sake of growth. As advocates of environmental stewardship, we believe high performing windows and doors can contribute to a reduction in our energy consumption and progress our vision of reducing our collective environmental impact to protect our planet.

BENEFITS

Profit Sharing Bonus | Health Reimbursement Plan | Simple IRA Retirement Plan | Paid Vacation + Holidays | Flexible Schedule | Opportunity for Advancement

ELEMENTS OF THE POSITION

- Supports Senior Project Architects and Managers with the development of window and door quotes and technical drafting from project inception through delivery
- Communicates with stakeholders throughout the project lifecycle to ensure a high level of customer service
- Accurately and efficiently creates window and door estimates utilizing multiple software programs.
- Accurately and efficiently drafts shop drawings, installation details and detailed drawing sets utilizing CAD, Revit and other software programs
- Develops and maintains a deep understanding of Glo component and hardware systems.
- Actively engages with customers and project managers to improve design in line with Glo product offerings

MINIMUM QUALIFICATIONS

- Minimum 3 years demonstrated experience designing and drafting high end custom home plans, elevations and section details using Revit and/or AutoCad
- Demonstrated experience in a customer facing role in the custom home market construction industry
- Highly organized approach to work and job execution
- Understanding and interpreting architectural details

Glo is a boutique fenestration design studio focused on high-performance windows and doors for large openings in luxury residential homes with unique architectural design. We specialize in meeting fenestration design goals and performance specifications through close project collaboration with select Architects and Builders who prioritize high performance, quality, and pushing the boundaries of building industry standards to drive a more sustainable future.

Precision + Performance
